

Renzo Sensor indoor fixture is an integrated, surface mounted LED bulkhead and a perfect alternative to surface mounted fluorescent luminaires. This popular range has now been extended to include warm white colour temperatures and higher outputs and comes with a built-in microwave motion sensor, which uses low power microwave signals to detect the movement of people entering and leaving rooms. Ideal for hotel rooms, stairwells and corridors.

## 15.5W Renzo Integrated LED Bulkhead with Sensor

Product Code

180169
