

Introducing the new innovatively designed LED high bay from Megaman®, GEO. With its lightweight slim contemporary design, GEO's robust (IK08 rating) and passive cooling housing, is an easy single point low labour cost install. This unique high bay fixture has an integrated LED and built-in driver, Microwave motion sensor that allows for dimming and better glare control through optional reflectors and refractors. It gives instant high-quality light ideal for use in large indoor and outdoor areas, an LED alternative to 150W, 250W and 400W metal halide lamps that provides a huge reduction in power consumption.
